

TIRED OF RUSTED AND NOISY SHOPPING CART CASTERS?

INTRODUCING: NylaKat™

NylaKat™ casters will elevate both the performance and appearance of your shopping carts, all while helping reduce the noise within your store. Keep your carts looking newer longer and provide a smoother and quieter experience for your shoppers with NylaKat™ casters.

- Durable, glass-filled nylon body maintains original appearance longer and will not rust, creating a safer environment for shoppers
- Sealed precision ball bearing swivel is more ergonomic and provides a better seal from dirt and debris compared to steel casters
- Ultra-quiet operation reduces noise in your store
- Durability comparable to steel casters
- Available with any of our premium shopping cart wheels (shown with matching QuietKat wheel); contact us for free samples

Specifications	Axle	Stem Fastening with Square Key
5" x 1 1/4"	5/16"	1/2"-13 x 1"

Standard rig colors are black and gray; other colors available by special order. Consult factory for details.

WANT DRIER, SAFER FLOORS?

SNOW-GUARD WHEELS

Specially designed to keep excess snow and water from being carried inside by your carts, adding the Pemco snow-guards will help keep your store cleaner, drier, and safer. Customers will appreciate carts that handle easier and look better—snow, rain, or shine.

- Full thread guards reduce the amount of snow and water carried into store
- Enhances cart appearance and reduces dust and dirt accumulation
- Prevents entangling debris from entering the wheel

Specifications	Axle	Wheel Options Available
5" x 1 1/4"	5/16"	Tensioner models and Anti-static models also available*
