A-line is a competitive, core lineup of 1-1/4" wide casters designed and mass-produced for a wide range of applications. ANSI-ICWM:2018 tested to provide working load capacities up to 350 lbs. per caster, A-line is an economical and in-stock 1-1/4" wide offering you can depend on. A-line is available in a variety of size, wheel, fastening, and brake options and features our one-year standard warranty.

Consult factory for RoHS and NSF requirements on a part specific basis.

Brake Options

Side Brake

Utilizes a lower sitting brake lever (on/off) that engages and disengages a brake arm that securely locks on the face of the wheel when engaged. See below total lock to also lock the swivel section of the caster.

Total Lock

Integrated brake pedal simultaneously locks both wheel and swivel section of caster when engaged. Simply push the "OFF" portion of the brake pedal to resume full mobility of wheel and swivel.

Wheel & Bearing Options

TPR

Thermo-Rubber (TPR)

Thermo-Rubber (TPR) wheels provide excellent floor protection, are resistant to most chemicals/oils, and help reduce vibration by absorbing shock. Standard precision ball bearings provide easy and quiet rolling. Full thread guards prevent debris from entangling the axles.

Durometer: 75A (± 5)

Temp Range: -40°F to +180°F

TPU

Thermo-Urethane (TPU)

Thermo-Urethane (TPU) wheels are the most ergonomic and easiest to roll, provide excellent floor protection, and are highly resistant to chemicals/oils. Standard precision ball bearings provide easy and quiet rolling. Full thread guards prevent debris from entangling the axles.

Durometer: 90A (± 5)

Temp Range: -40°F to +180°F

POD

Polyolefin (POD)

Polyolefin (POD) wheels are the most economical wheel. Wheels come with DuPont engineered Delrin bearings which are extremely durable under a wide range of temperature and humidity conditions. They are also corrosion resistant and lightweight.

Durometer: 70D (± 5)

Temp Range: -40°F to +180°F

Wheel Bearings

Precision Ball

Centered Precision Ball Bearing standard on Thermo-Rubber (TPR) and Thermo-Urethane (TPU) wheels

Comes standard on Polyolefin (POD) wheels

FEATURES

- The industry's most popular 1-1/4" wide caster sizes, wheels, fastenings, brakes, and accessories
- Thick, high-strength steel construction
- Dual ball bearing raceway design
- Raceway dust cap standard on all swivel models for increased caster life and performance
- Dynamic load capacities up to 350 lbs. per caster
- Durable zinc finish
- 3/8" diameter nut and bolt axle
- Full thread guards and precision ball bearings on TPR and TPU wheels provide smooth and quiet performance and help prevent debris from entangling wheel
- Many Polyolefin (POD) wheel models are NSF listed (consult factory)

APPLICATIONS

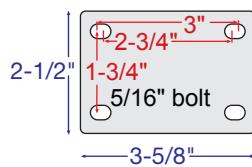

- Carts
- Material Handling Equipment
- Store Fixtures
- Institutional Equipment
- Office Equipment
- Storage Equipment/Cabinets
- Hospitality Carts
- Food Service

E-LINE Economical & In-Stock

2" Wide Casters, Wheels
and Accessories

**Internal Brake Arm Stays
Protected From Forklifts
and Other Equipment!**

Three NEW Wheel Offerings!

The E-line is an economical lineup of casters and wheels designed and mass-produced for a range of medium-duty applications with load requirements ranging from 300 to 1,250 lbs. per caster. From shop carts and containers, to platform and lumber carts, the E-Line is your most competitive and in-stock 2" wide solution.

- The industry's most popular 2" wide caster sizes, wheel options, brake configurations, and accessories.
- Capacities up to 1,250 lbs. per caster.
- Double ball raceways for smooth swiveling action.
- 1/4" thick steel leg construction on swivel and rigid casters. 3/16" construction on total lock casters.
- 5/8" diameter permanent rivet kingpin.
- RoHS compliant industrial zinc finish for corrosion resistance.
- 1/2" hollow axle with grease zerk and lock nut.
- Total lock permanently integrated into swivel fork on total lock models.

Swivel Brake Options

Total Lock
Integrated into swivel fork ... locks and unlocks both wheel and swivel with a toe tap. Models shown in chart.

Wheel Face Brake (WFB)

Tread Lock Brake (TBK)

Short Pedal - 5" Length Cam Brake (CAMS)

Long Pedal - 7" Length Cam Brake (CAML)

Roller Bearing required for CAM Brakes. Not available on Solid Polyurethane K or PolyKat™

Rigid Brake Options

Wheel Face Brake (not available on 4" and 5" rigid models) (WFB)

Tread Lock Brake (TBK)

Short Pedal - 5" Length Cam Brake (CAMS)

Long Pedal - 7" Length Cam Brake. Not available on 4" and 5" rigid models. (CAML)

*Roller Bearing required for CAM Brakes.

Bearing Options

To specify the optional Pedestal Precision Ball (B) or Delrin® (D) bearing in a caster, please add B or D to the end of the Part # (see following pages). To order bearing alone, please see Page 5.

Retainer Washer Option

Standard

Plastic Retainer Washer

Optional

Steel Retainer Washer (SW)

Plastic retainer washers come standard on wheels with roller bearings; to order optional steel retainer washers add SW to the end of the part#. Example ES6X2CIRSW

Sealed Raceway Option

Rubber raceway seals keeps dirt out and lube in for longer caster life. Add RS after ES for free swivel models (example: ESRS6X2TPR). Seals are not recommended when swivel locks are used.

¹Maximum weight capacity of total lock brake casters is 900 lbs. each.

²Swivel radius shown in above table is for standard swivel plate models; for brake swivel radius see table to right.

³Available optional bearings are shown in this column. To order add appropriate code. Delrin example: ES4X2MAXD. For KWL change B to D. ESX2KWL

⁴To order with an optional brake, add brake code to end of swivel or rigid caster part #. Tread lock brake example with roller bearing: ES6X2TPRTBK. Tread lock brake example with precision ball bearing: ES6X2TPRBTBK.

Wheel Diameter	Brake Swivel Radius		
	Total Lock	Wheel Face Brake (WFB)	Tread Lock Brake (TBK)

5"	5-13/16"	6-7/8"	4-1/4"
6"	6"	7-5/8"	4-3/4"
8"	6-3/5"	8-1/2"	6-1/8"
			6-3/4"

Wheel Features

PolyKat™ Thermo-Urethane

- Premium Polyurethane on Glass reinforced Polypropylene core
- Maintenance free, sealed precision ball bearings
- Excellent roll-ability and floor protection.
- High load capacity and impact strength.
- Good in wet applications, resistant to most chemicals

PKT

Durometer: 55 Shore D (± 5)

Thermo-Urethane

- Polyurethane tread mechanically locked to polypropylene core
- Attractive, all-purpose wheel
- Good in wet applications, resistant to most chemicals

TUM

Durometer: 95 Shore A (± 5)

Solid Polyurethane K

- Molded from a high strength urethane compound
- Solid wheel eliminates any possibility of tread separation
- Good in wet applications, resistant to most chemicals
- Wheel works with Torrington style roller bearing

KWL

Durometer: 55 Shore D (± 5)

Mold-on Poly

- Polyurethane bonded to cast iron core
- High load capacity
- Good roll-ability and floor protection

MOP

Durometer: 95 Shore A (± 5)

Mold-on Rubber

- Rubber bonded to cast iron core
- Quiet, shock absorbing ride

MOR

Durometer: 85 Shore A (± 5)

Thermo-Rubber Flat and Donut

- Non-marking tread
- Good floor protection
- Quiet, shock absorbing ride
- Good in wet environments, resistant to most chemicals

TPR TPD

Durometer: 90 Shore A (± 5)

Glass Filled Polypropylene

- Stronger than standard Polypropylene
- Higher capacity compared to standard Polypropylene

GFP

Durometer: 65 Shore D (± 5)

Maxim® Glass Filled Nylon

- Excellent load capacity
- Superior in wet environments, resistant to most chemicals

MAX

Durometer: 85 Shore D (± 5)

Phenolic

- High load capacity.
- Hard tread, rolls easily
- Excellent impact strength
- Abrasion resistant

PHN

Durometer: 90 Shore D (± 5)

Roller bearing is standard for all above wheels except PolyKat and KWL models which include Pedestal Precision Ball bearings.

However, Torrington style roller bearings will fit the KWL wheels. For optional Pedestal Precision Ball bearings, change last letter in part # from **R** to **B**; for Delrin® bearing change the last letter from **R** to **D**. Bearings include spanner bushings when necessary. Plastic retainer washers come standard on wheels with roller bearings; to order optional steel retainer washers add **SW** to the end of the part number.

Polypropylene HD

- Lightweight economical wheel.
- Good load capacity
- Excellent impact strength
- Superior in wet environments, resistant to most chemicals

POD

Durometer: 70 Shore D (± 5)

Cast Iron

- Solid 1 piece construction
- High load capacity
- Hard tread, rolls easily
- Excellent impact strength
- For high temperature up to 600°F – must use optional steel retainer washers (**SW**)

CIR

Thread Guard Options

Thread Guards help keep debris out of the wheel bearings. To order: add **TG1** for metal or **TG2** for plastic, to the end of the caster part number. **TG2** option only available on TPR & TPD wheels in 5", 6" & 8" diameters – no other wheels currently available with **TG2** option.

E-LINE

Brake Kits

All brake kits include axle, nut and necessary hardware to install on swivel or rigid rigs.

Tread Lock Brake (TBK)

TBK4X2E	4" models
TBK5X2E	5" models
TBK6X2E	6" models
TBK8X2E	8" models

Wheel Face Brake (WFB)

WFB4X2E	4" models
WFB5X2E	5" models
WFB6X2E	6" models
WFB8X2E	8" models

Long Pedal Cam Brake 7" (CAML)

Only works with roller bearing models. Fits 5", 6" & 8" E-Line models.

CAMXX2L	Comes with custom spanner bushing (roller bearing required)
---------	---

Short Pedal Cam Brake (5") (CAMS)

Only works with roller bearing models. Fits all caster sizes.

CAMXX2S	Comes with custom spanner bushing (roller bearing required)
---------	---

Floor Lock Options

Single Pedal Floor Locks

Designed to hold your portable equipment in a desired location.

BRGPBALLEX2

Flanged Delrin bearing
3/4 I.D. (Use With Bushing For 1/2 I.D.)
BRGDELRNEX2

Raceway Seals

Upper and Lower seals available on swivel caster models (Sold as set). Seals are not recommended when swivel locks are used.

RCWYSEALEX2

4 Position Swivel Lock

Lock and unlock swivel for easy tracking down hallways

SWVLOCKX2

PEMCO®

Consult factory for RoHS and Ro requirements on a part specific basis.

E-LINE™

Stainless Steel

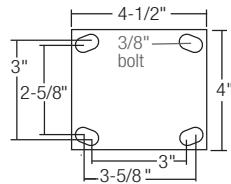

*The Ultimate Value in Stainless Steel
Casters, Wheels & Accessories*

E-LINE Stainless Steel

- Ideal for harsh environments where frequent wash downs, chemicals and other corrosive elements cause zinc plated casters to rust or corrode
- Electropolished 304 stainless steel construction
- 3/16" thick stainless steel top plate and fork legs for durability
- Double stainless steel ball bearing raceways provide smooth swivel
- 5/8" stainless steel kingpin
- Grease fittings standard in swivel raceway and 1/2" diameter stainless steel axle for easy maintenance
- All metal components, such as: bearings, bushings and zerk fittings are stainless steel
- Standard grease on swivel caster rated up to 248°F and will soon feature DOW G-4500 food grade synthetic grease (-58° to 334°F) as standard. For timing and higher-temperature options, please contact factory.

Top Plate Dimensions

Brake Options

Stainless Steel Wheel Face Brake (WFB)

WFB brakes work on all swivel models and also 6" and 8" rigid models!

Stainless Steel Tread Lock Brake (TBK)

TBK brakes work on all swivel models and also all rigid models!

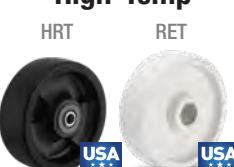

Stainless Steel Cam Brake (CAM)

CAM brakes can only be used with Roller Bearing or 1-Piece Delrin bearing options

Field installable brake kits also available. See back page for more info.

High-Temp

- Designed to withstand the rigors of high temperature, perfect for cooker racks and Retort carts
 - HRT** is heavy duty glass-filled nylon with a temperature range: -20°F to +480°F continuous
 - RET (RETORT)** is glass-filled polypropylene with a temperature range: -20°F to +290°F continuous
- Durometer:** 75 Shore D (±5)
MAX Temp: -40°F to +250°F
WNY Temp: -20°F to +250°F

Nylon

- Excellent load capacity
- Excellent impact strength
- WNY** wheels excellent for clean rooms
- Superior in wet environments, resistant to most chemicals

Durometer: 85 Shore D (±5)
MAX Temp: -40°F to +250°F
WNY Temp: -20°F to +250°F

Thermo-Rubber Flat and Donut

- Non-marking thermoplastic rubber tread chemically bonded to polypropylene core
 - Good floor protection
 - Quiet, shock absorbing ride
 - Good in wet environments, resistant to most chemicals
- Durometer:** 70 Shore A (±5)
Temperature: -40°F to +180°F

Thermo-Urethane

- Polyurethane tread mechanically locked to polypropylene core.
 - Attractive, all-purpose wheel.
 - Good in wet applications, resistant to most chemicals.
- Durometer:** 95 Shore A (±5)
Temperature: -45°F to +180°F

Solid Polyurethane

- Molded from a high strength urethane compound
 - Solid wheel eliminates any possibility of tread separation
 - Good in wet applications, resistant to most chemicals
- Durometer:** 55 Shore D (±5)
Temperature: -45°F to +158°F

Polypropylene HD

- Economical construction and light in weight
 - Good load capacity and impact strength
 - Superior in wet environments, resistant to most chemicals
- Durometer:** 70 Shore D (±5)
Temperature: -45°F to +180°F

Bearing Options

Stainless Roller (R)

(default bearing unless otherwise specified)

Stainless (266°F) Pedestal Precision Ball (B)

(an excellent way to achieve better ergonomics)

2-Piece Delrin® (D)

300 F High-Temp Nylon* (N)

(*standard in any High-Temp Delrin Bearing caster or wheel selection)

1-Piece Delrin® (Z)

1-piece Delrin® is standard when ordering cam brakes

Retainer Washers (for roller bearing wheels)

Plastic retainer washers come standard on wheels with roller bearings.

High-Temp roller bearing wheels (HRT and RET) come standard with Stainless Steel Thrust and Retainer Washers

Plastic Retainer Washer

Stainless Steel Thrust and Retainer Washer

Sealed Raceway Option

Rubber raceway seals keep dirt out and grease in for a longer caster life. To order, add **RS** after **ES** in swivel caster part number (example: SSESRS6X2TPR). Seals are rated for applications up to 140°F.

Caster Specifications

To change standard bearing or add brakes, add (+) the desired code to the end of the Part #; example: SSES4X2TPRBWFB

¹To order 1-Piece Delrin® (Z) bearing, utilize Z in place of D when adding bearing option code to part #; example: SSES8X2PODZ. 1-Piece Delrin® (Z) bearing must be utilized when ordering Delrin® bearings with CAM brake.

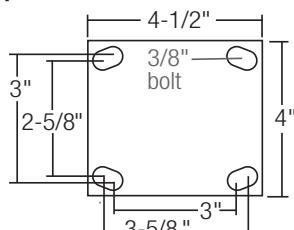

²CAM brake not compatible with High-Temp Nylon (N) bearing; utilize Stainless Roller (R) bearing for High-Temp Cam brake requirements or change to TBK brake to utilize N bearing.

³Replace B with D in part number to order Delrin® bearing on Solid Polyurethane K wheels, then add optional brake code.

*Note: Swivel radius shown in above table is for standard swivel plate models; for brake swivel radius see table to right.

Note: Stainless Steel Roller bearing (includes spanner bushing) is standard for all above wheels except KWL models which include Stainless Pedestal Precision Ball bearings. For optional Stainless Pedestal Precision Ball bearings, change the third to last letter in part # from R to B; for Delrin® bearing change the third to last letter from R to D (for 2-Piece) or R to Z (for 1-Piece), both Delrin® options include spanner bushing. High-Temp roller bearing models come standard with stainless retaining and thrust washers, all other roller bearing models come standard with plastic retainer washers. To order blank wheel (1-3/16" bore with no bearing), change the last three characters in wheel part # to 19; example: WH6X2TPR19.

¹ High-Temp Nylon bearing can be ordered by changing third to last letter in part # from R to N; Delrin® options not available due to temperature constraints.

² KWL wheel standard with Stainless Pedestal Precision Ball bearing; see above note* to order with Delrin bearing option.

PEMCO®

*Shopping Cart Casters
& Wheels*

Pemco Shopping Cart

Features

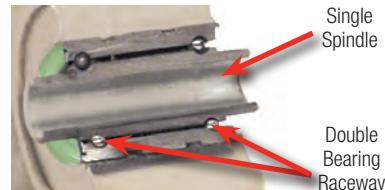

- Considered by many to be the standard of the industry.
- Wheel tread is mechanically locked to core. On KasterKat models wheel tread is also chemically bonded.
- Many Pemco models feature the patented sealed bearing features double ball raceway that is insert-molded into the hub. The single spindle design cannot become misaligned with use.

Options

- Anti-static and self-braking models available.
- Caster finish options including standard zinc plating, PemCoat and Precision Hollow Rivet.
- Wheel tread options including polyurethane, TPR and anti-static polyurethane.

Pemco Bearing Difference

Legacy Single Spindle Bearing

Bearing is insert-molded into the polypropylene hub. This bearing is a single spindle design that cannot become misaligned with use. It is also sealed on both sides after being pre-lubricated with high quality grease.

New Dual Precision Bearing

Pemco now offers a new dual precision bearing for smooth, quiet rolling. This bearing is also pressed into the hub for greater durability and longer service life.

Wheel Choices

The **KasterKat** premium features a molded, red annular ring mixed with polyurethane, between the hub and our premium polyurethane tread. This process provides both a chemical bond and a mechanical lock between the tread and hub.

Polykat wheels features a polyurethane tread mechanically locked to a polypropylene core. This design helps prevent tread separation.

QuietKat wheels are very durable, roll easy and are well suited for a variety of applications. The wheel cushions your ride over rough surfaces, providing excellent shock absorption. The softer 88A Durometer TPR tread design will not mark your floors.

SuperKat wheels feature a soft natural rubber tread material along with a more rounded tread shape. This design allows the wheel to rotate as it is pulled sideways by cart pusher machines. Because the wheel is allowed to spin, even with sharp turns, it is much more resistant to flat spotting compared to conventional wheels. This design has been used successfully in Europe for over 20 years.

Wheel Features

PolyKat Anti-Static. Say goodbye to straps and chains. Patented anti-static wheel discharges static electricity of shopping cart every rotation of the wheel.

Standard **Tensioner** wheel reduces damage caused by rolling, unattended shopping carts. They are designed to hold unattended shopping carts on a slight slope (1-2 degrees) and slow down acceleration on greater slopes.

Adjustable Tensioner wheels have deceleration is pre-set at the factory for average conditions. Parking lot conditions vary widely -- the amount of deceleration can easily be field adjusted to meet customer needs.

Fusion wheels feature the fusion of anti-static and tensioner wheel for the ultimate in shopper comfort and protection. No field adjustment necessary.

Visit www.colsongroupusa.com to discover how easy it is to choose the right caster for your specific application.

The screenshot shows the Colson Group website homepage. At the top, there is a navigation bar with links for INDUSTRIES, CASTER SOLUTIONS, CASTERS BY CAPACITY, WHEELS, CAPABILITIES, RESOURCES, and CONTACT COLSON. There are also links for LOGIN, REGISTER, and QUOTE CART, along with a search bar and a language selection icon. A banner at the top features the text "THE GLOBAL LEADER IN CASTER AND WHEEL SOLUTIONS" over a background image of a factory floor. To the right of the banner is a "MADE IN USA" badge next to a large industrial wheel. Below the banner is a red "QUICK SEARCH BY INDUSTRY SOLUTIONS" section. This section includes a "CASTERS" button (which is highlighted in red) and a "WHEELS" button. It is organized into a grid of 12 icons, each representing an industry: Aerospace (airplane), Air Cargo (airplane), Automotive (gear), Data Centers (server racks), Food Service (hand holding a plate), Furniture (cabinet), Health/Medical (stethoscope), Horticulture & Gardens (plants), Hospitality (hands holding a heart), Institutional (building), Laundry (washing machine), Marine (boat), Retail Environment (shopping cart), Robotics (robot arm), Tool Storage (wrench and gear), and Warehousing & Distribution (stacked boxes). A "SEARCH INDUSTRY PRODUCTS" button is located at the bottom of this section.
